?uca Zbârcea & Asocia?ii's Structural Funds Department has contributed to the release of more than 1,000 pages containing the inspection authorities' Notices of Findings on the application of financial corrections in the structural fund projects implemented by local administrative authorities over the last four years. Along with the Institute for Public Policies (IPP) and the Romanian Association of Municipalities, ?uca Zbârcea & Asocia?ii has issued, for the first time in Romania, a systematic case law directory on local and county authorities' management/control of EU funds. The directory, entitled Notices on the Finding of Irregularities and the Setting of Financial Corrections in Structural Fund Projects, is a representative national sample of notices of findings generating more than EUR 300 million of financial corrections, applied over the last four years to local authorities' structural fund projects (county councils and town halls of county capitals). **To read the entire article, please download the .pdf attached.** **All rights reserved to ?uca Zbârcea & Asocia?ii and IPP.**
